EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1:

In Claim 1, line 17, before "can be articulated", **Delete** "clamping member" and **Insert** - - adjustable arm - -.

Allowable Subject Matter

Claims 1,3,5-8,11-14 and 17-18 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach the a runner apparatus including elongate ski members and clamping members, such that each arcuate clamping member adjustable arm can be individually articulated by compressing respective springs along a vertical plane and further providing swiveling means comprising a shaft member integral with the top surface of a ski member allowing the support member of the

clamping member to rotate forward and rearward. A combination of these and other limitations has not been reasonably found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
